

A Course in Miracles Centre Toronto

Presents

"Understanding A Course in Miracles"

This program is for people who would like to have a better understanding of the course. *For both beginners and those that have been studying for some time* and will include discussions on:

- *How the Course came to be*
- *Clarification of terms*
- *The basic message*
- *What is a miracle?*
- *The role of forgiveness*
- *Our special function in the world*

We will also discuss how to read the course and what is required to practice the lessons. This is part one of a two part series – the second part will be offered in the New Year and will focus on techniques for practicing forgiveness. The two classes can be taken separately.
