

1 MILLION CANDLE POWER SPOTLIGHT 41-1097

USER INSTRUCTIONS

Take care to read this guide carefully before using this product to avoid unnecessary damage to the unit.

YOU MUST FULLY CHARGE THE BATTERY BEFORE FIRST USE.

SPECIAL FEATURES

- Bright: 1 Million Candle Power beam carries up to one mile
- Built-in 6V4AH sealed lead acid rechargeable battery
- Charge in vehicle with car cord or at home with AC adaptor (both included).

CHANGING THE BATTERY

Remove rubber bezel of the light head and loosen the 6 screws. Open the spotlight body and remove wires from battery and replace with new battery. Reattach wires to battery (red to red, black to black) and reassemble.

CHANGING THE BULB

Before changing the bulb, switch off the spotlight and let it cool for at least 10 minutes.

Steps in changing the bulb:

Remove rubber bezel of the light head and loosen the 6 screws. Open the spotlight body and remove the split pin on the back of the reflector. Loosen the screw and remove the lamp wire from the holder. To remove the light bulb, pull out the flat socket from the spring clip. Insert a new H3-6V 55W Quartz Halogen bulb. Repeat the above steps in reverse order to reassemble spotlight.

OPERATING INSTRUCTIONS

Depress trigger to turn spotlight "ON". The spotlight will stay "ON" without having to hold the trigger. A full charge will give you up to 30 minutes continuous operation. Depress trigger again to turn spotlight "OFF".

CHARGING - Do not use Spotlight while charging

AC Charging

* With AC adaptor: Insert the AC plug into the jack on the handle and the other end into an AC outlet. The LED indicator light will go on indicating that the spotlight is charging (approximately 15 hours). **DO NOT OVERCHARGE** (do not leave spotlight charging for longer than specified charge time), battery can be damaged.

DC Charging

* With DC Adaptor: Insert the DC plug into the jack on the handle and insert the cigarette lighter plug into a car cigarette lighter socket. The LED indicator light will go on indicating that the spotlight is charging (approximately 12 hours). **DO NOT OVERCHARGE** (do not leave spotlight charging for longer than specified charge time), battery can be damaged.

The LED indicator will **NOT** turn off when spotlight is fully charged. It is merely a charging indicator.

IMPORTANT SAFETY INSTRUCTIONS

- **NEVER touch lens while in use. Danger of high heat at the lens surface.**
 - **NEVER look directly into light or shine in someone else's eye**
- **NEVER touch halogen bulb with bare hands (natural oils from hands could damage the bulb)**
 - **NEVER use the spotlight in water or close to fire.**
 - **NEVER leave spotlight unattended during use.**
 - **KEEP AWAY from children**
- **ONLY use the accompanied AC or DC charger to recharge spotlight**

Warranty: (Excluding bulbs and batteries) This product is warranted to be free from defect in material or workmanship for one year from date of purchase. If product is defective, please return to Dorcy for repair or replacement. Dorcy reserves the right to substitute product of equal or lesser value if returned product is not available.
