Ferrari ZenithStar Racing Ed.

A beautiful telescope to look through and a beautiful telescope to look at.

Designed for multiple purposes, this little red scope will delight you from the first minute of use.

The Ferrari ZenithStar Racing is the king of refractors. Entirely made of automotive-grade aluminum, painted with powder paint "Rosso Scuderia" red, it is the ultimate optical product to add to your collection.

Easy to set-up, all you need is a camera tripod and you are ready to go. Designed to be able to connect to Digital SLR cameras (optional adapter needed), it can double as a great telephoto lens. The zoom eyepiece will provide magnification from 25x to 50x, enough for most applications. The provided erecting prism and zoom eyepiece are interchangeable with a full series of optional accessories for all needs. A 1.25" adapter is provided in the package.

SPECIFICATIONS

Aperture	66 mm
